20th Anniversary Congratulations

Dean of Management Faculty

Częstochowa University of Technology

Dear Prof. Dorota Jelonek,

We would like to congratulate the Management Faculty, Częstochowa University of Technology on the 20th Anniversary of the Faculty and extend our regards and best wishes to Faculty of Management staff and students.

The Częstochowa University of Technology is to be commended for its foresight and boldness in establishing the Faculty of Management in 1997 based on an integrated, multidisciplinary approach to organizing and management of mechanical and civil engineering, electrical, environmental and metallurgical science. The implementation of this concept was indeed visionary and well ahead of its time.

The Management Faculty graduates have been successful ambassadors for the Częstochowa University of Technology in a variety of professions in region, Poland and many countries. Due to the fact that the Faculty maintains exceptionally high standards, they are held in high regard by national and foreign institutions.

From my perspective, the Faculty provided us with an invaluable set of skills and strategies which has allowed us to pursue a diverse and rewarding career at state and regional levels in Poland and foreign country as managers and various multidisciplinary positions.

The single greatest asset our Management Faculty, Częstochowa University of Technology enabled us the ability to move confidently between variant professional disciplines and to work comfortably with individuals and groups from diverse educational backgrounds. Our Faculty of Management interdisciplinary training allowed us to participate in a broad spectrum of activities including various managerial aspects, policy analysis, urban and regional planning, project management, environmental impact assessment, management information and computer-aided design.
I feel confident that I speak for other staff and alumni when I thank the University and the Faculty for having equipped us with the necessary tools required to participate effectively in an increasingly complex, managerial and technological environment.

I would like to take this opportunity to personally thank those original faculty deans: W. Brzezin, E. Sitek, M. Nowicka-Skowron, J. Szopa - whose dedication, creativity and enthusiasm in establishing the Faculty of Management helped make our time at the Faculty one of the most challenging and rewarding experiences of our life.

I would like also to acknowledge all the Faculty authorities, scientific staff and administrative for the all the support in establishing and leading Polish Journal of Management Study.

Yours Sincerely,
Janusz K Grabara
